

Rehiring Policy

Human Resource Department

AMNEX INFOTECHNOLOGIES PVT. LTD.

This Policy establishes a fair and transparent process for re-hiring former employees of the Company who demonstrated valuable skills and contributions during their previous engagement.

Scope:

This Policy applies to all former employees of the Company, across categories, who have separated from the Company and completed the exit process.

Eligibility:

- Former employees are eligible to be considered for rehiring if they:
 - Exited the Company voluntarily (through resignation) or as a result of a Company-initiated lay-off; and
 - Held a performance rating of 3 (Good Performer, meeting Expectations) or above in their final appraisal.
- Former employees are not eligible for re-hire if they were terminated by the Company, absconded, or were asked to leave for a code-of-conduct violation.
- Have an unresolved disciplinary or compliance matter from their previous engagement

Re-hiring Terms:

There is no minimum waiting period for such employees to re-join. Re-hiring is subject to the following conditions:

- **Within 6 months of exit:** Eligible to re-join at the same designation and salary, subject to approval from the BU Head and HR Head. The offer and onboarding process will be re-initiated. Probation is exempt if they join on the same role.
- **After 6 months of exit:** Must undergo the complete recruitment and onboarding process. They may be considered for a different designation and compensation, subject to approvals. Whether they re-join in the same or a different role, the probation policy will apply.
- **Background Verification:** Re-hires are subject to the Company's Background Verification Policy (3.4). BGV is limited to verification of the gap period between the employee's previous exit and the current re-hire, together with any checks that were not carried out during the previous engagement. Verification already completed in the previous engagement is not repeated
- **Continuity of service:** Previous tenure with the Company does not automatically count towards statutory benefits (such as gratuity), leave balance, or seniority in the current engagement.

Procedure

- When a former employee applies for a position or approaches the Company about re-hiring, the standard recruitment and selection process applies.
- Re-hiring requires prior consultation with the HRBP. A re-hire may only proceed with the joint approval of the Hiring Manager and the HRBP.
- Final approval must be obtained as per the hiring approval matrix before an offer is extended.
- The operational steps including application intake, review of the previous personnel record, eligibility verification, and the standard recruitment and selection process are followed as per the recruitment SOP.

Governance and Deviations:

- Any deviation from the provisions of this Policy in a specific case requires prior approval from the HR Head.
- Any breach of this Policy — including circumvention of the eligibility rules or the approval process — shall be addressed in accordance with the Company's Disciplinary Policy
